With the world whirling in a mad maelstrom, and its very substance errupted, isn't it a grand feeling to be a part of the great horticultural family that is working so hard through these difficult days to preserve our planned floral beauty high among the finest of the elements we possess?

To discharge this office, the Joseph F. Martin Co. has been working tirelessly, to the complete extent of every available facility. Out of all this comes the fine privilege of presenting our annual hardy plant catalog to you once more.

Necessarily, quantities in all items are limited, and many varieties have been dropped in favor of the best in the particular family. With this, though, you have our assurance that there is no sacrifice in quality. Each unit shipped to you will subscribe to the top trade standard, and will go forward only after it has been examined for these specifications.

The many things that we have to thank our fine trade family for would constitute written pages that this space can't contain. It's not aside, though, to pay tribute to the fine loyalty, patience, and considerate understanding that we have known. Accept a heartfelt thank you and be assured that a warm reception awaits the opportunity of serving you fine people again this season.

Yours for Victory,

Ornamental Specialties ?

YES SIR . . .

Just as the postman walks his holidays away, the staff at a hardy plant nursery, with time spared from their routines, occupy themselves at propagating ornamental specialties. With a hobbyist's deep sense of attachment, the things they make are given the best of care and attention. Result? Each year a nice series of ornamentals stand salable in our nursery rows and, as a supplementary service, we offer our clientele the added advantage of this perfectly developed material.

DAPHNE CNEORUM

We are glad to report that we have Daphne in excellent supply. However, due to the stress of the times, we have been forced to give up the shipment of Daphne balled and burlapped. All plants are now dug bare root in the field and immediately wrapped individually. Many of our patrons, receiving them in this way, and avoiding the otherwise heavy transportation charges, have signified that they will continue to purchase bare root because their plantings have been completely successful. Try them at the following buyers' bargain prices:

NEW HYDRANGEA BLUE CHINA BOY

Blue China Boy is new, a distinct advance. It is distinguished by an immense head, with each floret measuring 2 to 3 inches. Actually each stalk is a bouquet in itself when cut. Its prime point is its complete **HARDINESS**. Here, where cold northern lakes winters prevail, it thrives in the coldest section of land in the nursery. Color is an intense blue; chemical components of the soil, of course, are factors in color intensity of all blue Hydrangeas.
